# LINDA ANN WEBER

Local artist, Linda Ann Weber, will debut her abstract collection in collaboration for the first time, with The Gallery, Lake Forest. "Evolving Attitude" is kicking off the Gallery's 2021 show run beginning in January.

Linda aptly titled her show, "Evolving Attitude", calling out the volatility of society's mindset and attitude a whole amidst Covid-19, which is constantly shifting based on the fluctuations of the pandemic, and everything it affects.

"I wanted to tap into what people have been feeling and offer a place of escape through my artwork."

Her latest series is created through the process of "intuitive painting", which is the exploration of painting and mark-making, building layers of history and texture on each canvas.
